学長 寺嶋 一彦

【注意喚起】新型コロナウイルス感染症拡大・感染防止に関する 対策の徹底について

全国の新型コロナウイルス新規感染者数は、減少傾向にあります。

愛知県, 東海地方, 豊橋市も同様に新規感染者数は減少傾向にあります。 https://www.city.toyohashi.lg.jp/41805.htm

学内においては、10月1日以降、感染者および濃厚接触者は1名のみ確認されております。この状況を踏まえ、10月18日から「本学の新型コロナウイルス感染拡大防止のための活動基準」を引き下げます。(レベル2.5→レベル2)

学生・教職員の皆さんにおいては、マスク着用や手洗い・手指消毒の徹底など、 各自でできる感染予防対策を引き続き実施するとともに、「3密(密閉、密集、密 接)」はもとより、1密でも回避すること、不要不急の移動を自粛することなど、感 染リスクを低減させる行動に努めてください。

特にマスク未着用のときに、感染が多く発生している状況がありますので、常日頃からマスクの着用を徹底してください。

万一,新型コロナウイルス感染症の感染が判明した場合,PCR 検査等を受けることが決まった場合,保健所から濃厚接触者に指定された場合又は家族・友人等が感染し,一緒に過ごしていたなどで濃厚接触者に当たると思われる場合などは、直ちに,「(学生・教職員)発症時における対応・大学への連絡フロー」に従い、健康支援センター等への連絡をお願いします。

[Call for attention] Thorough Implementation of Countermeasures to Prevent the Spread of COVID-19 infection

Please be sure that you should continue to implement necessary counter measures to prevent the spread of COVID-19 infection. It should be noted that the number of new cases of COVID-19 in Japan is on a downward trend.

In Tokai Region including Aichi Prefecture as well as Toyohashi City, the number of new cases of COVID-19 is on a downward trend.

At our university, Only one has been confirmed infected on campus since October 1st.

In consideration of these circumstances, the University's activity standard for the new coronavirus will be lowered to Level 2 from the level 2.5, effective from October 18th.

You are nonetheless required to continue your own infection prevention measures, such as wearing masks and thoroughly washing your hands and disinfecting your fingers and refrain from unnecessary travel and to take other actions to reduce the risk of infection.

Please be sure that you should avoid not only 3Cs condition (1.Closed spaces with poor ventilation,2. Crowded places with many people nearby, 3. Close-contact settings such as close-range conversations.), but also avoid the condition of even only One C.

In particular, many infections occur when masks are not worn, so please make sure to wear masks on a regular basis.

If any of the following cases apply to you, please immediately contact University's Health Care Center, etc. in accordance with the "How to respond to symptoms of COVID-19 and the flow of contact to the university".

(Cases for which you need to contact the Health Care Center)

- ·You are found to be infected with the COVID-19.
- You take PCR test.
- •The public health center identifies you as a close contact person with an infected person.
- •A family member who lives with you is identified as a close contact person with an infected person.

Excerpts from "New Lifestyle Practices".

(1) Basic Infection Prevention Measures

The Three Basic Rules:

① Maintain Physical Distance ② Wear A Mask ③ Wash Your Hands

Preventing Infection While Travelling:

- ①Refrain from travelling to and from areas with high infection rates.
- 2 Refrain from going back home and travels as much as possible
- 3 Stay up-to-date with the infection status of the various areas
- 4 Keep record of your travels and movements

(2) Daily Life in the New Lifestyle

- Frequently wash and sanitize hands.
 Observe proper coughing etiquette and ventilate frequently
- Maintain physical distancing
 Avoid the Three C's
 (Crowded areas, Closed spaces, Close-contact settings)
- 3 Check temperature and health condition every morning

(3) New Lifestyle for Various Situations

Public Transportation:

- 1 Limit conversing
- ② Avoid peak hours

Meals:

- 1) Sit side-by-side and not face-to-face
- 2 Concentrate on eating and refrain from chatting

Leisure and Sports:

- 1 Do not stay for long periods of time in small spaces
- ② Avoid singining or cheering while maintaining distance or via online

Shopping:

- Shop by oneself or in small groups as well as shop during off-peak hours
- ② When lining up for checking-out at cash registers, keep a distance between those in front and behind you
