学長 寺嶋 一彦

【注意喚起】夏季休業期間中における 新型コロナウイルス感染症対策の徹底及び厳重警戒について

新型コロナウイルス感染症は第7波に突入し、感染力がより強いといわれるオミクロン株「BA.5」への置き換わりが急速に進んでおり、愛知県でも感染者が急増し、医療機関や保健所の業務を圧迫し始めています。

豊橋市の感染者数も特に8月に入ってからは400~700人台で推移しています。また、本学学生・教職員についても7月下旬から急増し、健康支援センターへの感染等の報告が連日続いている状況です。

このような厳しい状況の中,7月29日に開催された政府の新型コロナウイルス感染症対策本部では、医療の負荷の増大が認められる場合に地域の実情に応じて、都道府県が県民及び事業者へ協力要請又は呼びかけをする「BA.5対策強化宣言」を行うことが決定されました。愛知県では8月5日(金)から8月21日(日)までの間「BA.5対策強化宣言」に基づく感染防止対策の徹底について協力要請が発出されましたので、これまで以上に感染対策の徹底・強化をお願いします(以下参照)。

https://www.pref.aichi.jp/site/covid19-aichi/covid19-aichi.html https://www.pref.aichi.jp/uploaded/life/414929_1845706_misc.pdf

本学では、間もなく夏季休業に入ります。期間中は多くの人が移動し、普段会わない人や友人との交流の機会が増え、飲食や遊びなど感染リスクが高まることが危惧されます。前年度は8月下旬に多くの感染者が発生し、友人や家族との食事・買い物・遊びなどの後で感染に至ったケースが多くありました。

ついては、あらためて下記に示す基本的な感染対策の徹底に加え、イベント等の開催・参加の際には事前検査するなど、より一層の感染対策をお願いします。

また、3回目のワクチン接種がまだの方は、自身はもちろん大切な家族や友人に感染させないためにも、是非ワクチン接種を行うようお願いします。

記

◆基本的な感染対策

- (1) 「三つの密」(①密閉空間、②密集場所、③密接場面)の回避、
- (2) 人と人との距離の確保, (3) マスクの着用※, (4) 手洗い, (5) 換気 https://corona.go.jp/proposal/
- ※屋内・屋外でのマスクの着用について https://www.mhlw.go.jp/content/000942601.pdf
- ◆お盆期間中における抗原定性検査無料検査所(豊橋駅他)の臨時設置について https://www.pref.aichi.jp/press-release/covid19-aichi/220802kougen.html
- ◆豊橋市保健所(ほいっぷ)でのワクチン接種について https://www.city.toyohashi.lg.jp/49172.htm

■万一,新型コロナウイルス感染症の陽性になった,濃厚接触者(可能性のある者を含む)になった、PCR 検査等を受けることとなった場合または風邪症状など体調不良がある場合などは、速やかに下記報告フォームより、健康支援センターへ連絡願います。

To all faculty staff members and students

President Kazuhiko Terashima

[Call for attention] Thorough Implementaation of Countermeasures to Prevent the Spread of COVID-19 infection and high alert during the summer holiday.

COVID-19 infection has been its seventh wave, and rapidly replaced by Omicron variant "BA.5," which is said to be more infectious.

In Aichi Prefecture, the number of infected patients is increasing rapidly, and medical institutions and public health centers are beginning to be overwhelmed.

The number of infected people in Toyohashi has also remained in the 400-700 range, the beginning of August. And the number of students, faculty staff of TUT has also increased rapidly since late July, and Health Care Center has been receiving reports of infection and other problems every day.

Under these difficult circumstances, the government's Task Force on COVID-19 Infectious held on July 29 has decided to implement "Declaration of Strengthened BA.5 Countermeasures", in which prefectures request or call for cooperation from residents and businesses when an increase in the burden of medical care is recognized, depending on the actual situation in the region.

Aichi Prefecture has issued a request for cooperation to ensure infection prevention measures based on the "Declaration of Strengthened BA.5 Countermeasures" from August 5 (Friday) to August 21 (Sunday). We ask that infection control measures be more thorough and strengthened than ever before (see below).

https://www.pref.aichi.jp/site/covid19-aichi/covid19-aichi.html https://www.pref.aichi.jp/uploaded/life/414929_1845706_misc.pdf

We will soon begin our summer vacation. During this period, many people will be on the move, and there will be more opportunities to interact with people and friends they do not normally see, which may increase the risk of infection through eating, drinking, playing, etc.

In addition to the basic infection control measures listed below, we ask to take further infection control measures, such as conducting inspections prior to holding or participating in events, etc.

If you have not yet been vaccinated for the third time, we urge you to do so in order to prevent yourself, your family and friends from being infected.

Note

- ◆Basic Infection Control
 - Avoiding the "three densities"
 (1) enclosed spaces, 2 crowded places, and 3 close situations)
 - (2) keeping distance
 - (3) wearing masks(※)
 - (4) washing hands
 - (5) ventilation.

https://corona.go.jp/proposal/

- (*) Wear masks indoors and outdoor https://www.mhlw.go.jp/content/000942601.pdf
- ◆Temporary establishment of free antigen qualitative testing stations (Toyohashi Station and others) during the Bon Festival https://www.pref.aichi.jp/press-release/covid19-aichi/220802kougen.html
 - ◆Vaccinations at Toyohashi Public Health Center (Hoipu) https://www.city.toyohashi.lg.jp/49172.htm
- ■In case you are identified as a positive, close contact person with an infected person (including potentially close contact person), you take test for COVID-19 at a medical facility, or you are aware of physical problems, please contact TUT Health Care Center via the below Report Form as soon as possible.

"How to respond to symptoms of Covid-19 and the flow of contact to the university $\mbox{``}$

https://www.tut.ac.jp/info/corona/katudo.html#flow

■Report Form in case of COVID-19, Awareness of physical problems

- 1. Awareness of physical problems such as fever, cough, difficulty breathing, and strong fatigue
- ★ Report form (for students) of cold symptoms and poor physical condition [Student student]
