

2022年9月27日

学生・教職員 各位

学長 寺嶋 一彦

### 【注意喚起】後期授業開始に伴う新型コロナウイルス 感染症の感染対策の徹底について

全国的に過去最多の感染者数を更新してきた第7波ですが、9月に入りようやく減少傾向に転じてきたようです。

そんな中、9月8日には政府の新型コロナウイルス感染症対策本部により「With コロナに向けた政策の考え方」が決定され、今後は行動制限を行わず、重症化リスクのある高齢者等を守ることに重点を置いて、感染拡大防止と社会経済活動の両立を図る方針とすることが示されました。また、基本的対処方針では、大学においては、学生の学修機会の確保と感染対策の徹底の両立に取り組むよう、引き続き要請があったところです。

これら国の状況、愛知県及び本学での感染状況等を総合的に検討した結果、既に通知のとおり、10月1日から「豊橋技術科学大学の新型コロナウイルス感染拡大防止のための活動基準」を感染防止と社会経済活動の両立の観点からレベル1の内容を見直したうえ、引き下げることにしました。レベル1では、教育・研究をはじめとする諸活動において制限や制約はありませんが、基本的な感染対策の徹底、「新しい生活様式」の実行の上で活動することを前提としていますので、ご留意願います。

後期授業の開始に向け多くの学生が豊橋に帰って来ると思います。久々に会う人や友人との飲食や遊びなど交流の機会が増え、また、これからの季節はいろいろなイベントが開催され、人が集まる場所への移動も増えることにより感染リスクが高まる恐れがあります。

大学での活動に限らずプライベートにおいても、自分や大切な人が感染しないよう、下記に掲げる感染対策の徹底をお願いいたします。

September 27, 2022

To all faculty staff members and students

President Kazuhiko Terashima

**[Call for attention]**  
**Thorough Implementation of Countermeasures to Prevent  
the Spread of COVID-19 infection for the start of the 2nd semester.**

The number of cases of COVID-19 infection in the seventh wave, which has been the highest ever recorded nationwide, seems to have finally started to decline in September.

On September 8, the national Novel Coronavirus Response Headquarters decided on the "Policy Approach Toward With-Coronavirus," which indicates that the government will not restrict activities but will focus on protecting the elderly and others at risk of serious illness, in order to achieve a balance between preventing infection and social and economic activities. Measures to be taken based on the basic response policy have been asked each universities to continue to work on both ensuring opportunities for students to study and thorough implementation of countermeasures to prevent the spread of COVID-19 infection.

In consideration of these circumstances, as we have already announced, the contents of each activity have been changed in term of achieving a balance between preventing infection and social and economic activities, and the University's activity standard level will be set at Level 1 from October 1. Although there is not any restriction on each activities at Level 1, all activities at Level 1 assume basic infection control measures and new lifestyle practices.

Before the start of the 2nd semester, many students will be on the move, and there will be more opportunities to interact with people and friends who have not seen for a while, which may increase the risk of infection through eating, drinking, playing, etc. In addition, many events will be held in this season, which may also increase the risk of infection through more times for moving to the place many people will gather.

In order to prevent yourself, your family and friends from being infected, not only in university activities but also in your private life, you are required to thorough implemenatation of countermeasures to prevent the spread of COVID-19 infection as below.

Note
