

## Choosing a Lehman Lab

### Lehman College, City University of New York (CUNY)

- Look for a lab in the following homepage:  
<https://www.lehman.edu/reach/research/research-mentors/>
- If the lab you choose does not have a vacancy, Lehman college may suggest an alternative mentor.
- Lehman departments that are likely to accept students include Physics, Biology, Computer Science, Chemistry.
- Here are some Faculty members who have vacancies for internship students in their labs and are willing to receive students from TUT:

Faculty	Notes
Andrei Jitianu Professor 	<ul style="list-style-type: none"><li>• Inorganic Chemistry</li><li>• Materials chemistry on sol-gel processes, monodisperse particles and carbon multiwall nanotubes for advanced materials preparation</li><li>• <a href="https://www.lehman.edu/academics/chemistry/prof-jitianu.php">https://www.lehman.edu/academics/chemistry/prof-jitianu.php</a></li></ul>
Benjamin Burton-Pye Assistant Professor 	<ul style="list-style-type: none"><li>• Inorganic and Radiochemistry</li><li>• Luminescent systems towards developing better imaging agents and assays</li><li>• <a href="https://www.burtonpye.science/about">https://www.burtonpye.science/about</a></li></ul>
Naphtali O'Connor Associate Professor 	<ul style="list-style-type: none"><li>• Organic and Polymer Chemistry</li><li>• Development of materials for biomedical applications</li><li>• <a href="https://www.lehman.edu/academics/chemistry/prof-oconnor.php">https://www.lehman.edu/academics/chemistry/prof-oconnor.php</a></li></ul>
